The Secret of Why Law Of Attraction Works

Thoughts and desires determine all goals and their attainment. Some people think them out of reach. This is only because the understanding of the universal law in the law of attraction, escapes them. Simple quantum physics explain we all are parts of the universal energy system.

We are not separated from the universe and this energy, we are all one with it. We can control it with our thoughts. No matter what you want, if you can focus your thoughts on it, it will come to you because of this law.

However, the law works both ways. If you constantly think negative thoughts, you will bring negative things into your life. So if you dwell on your poverty, debt, or relationship problems, you are sure to get more of the same. The Law of Attraction is precise, just like the Law of Gravity. It doesn't matter if you think good thoughts or bad thoughts, or if you are a good person or bad person. If you jump off a building, you will hit the ground every time. The Law of Attraction works in the same detached but predictable way.

Considering this, makes sense to drive out negative thoughts with positive thoughts, words and actions. Do not focus on things you do not want. Rather focus more intently on the things you do want. For instance, you want to attract money to you, because you want to buy a new house. Then you should focus thoughts on what it feels like to be living in it already. Do not focus on the money. Focus on being in your new home.

Allow yourself to feel the emotions of experiencing living in the house. Feel those emotions feel them right now. These are your desires. You will attract that house when you focus your energy of thoughts and emotions on having your home sweet home. Stay open to the house coming to you in some form or another, whether money is required to have it or not.

Don't make the mistake of trying to use the law when you are feeling desperate or in need or you will get more of the same. If money is short and debt is piling high, don't dwell on the feeling of needing money or being broke. Instead, visualize all of your bills paid on time and how good and lighthearted that makes you feel.

The biggest mistake you can make is thinking you can work it all out for yourself, when it comes to using the law of attraction. Many people do this, so unfortunately it is common. The good news is all you have to do is determine the details of what you want and then focus on the emotions and thoughts of having it and this law will work for you. You decide what you want and then the universe decides how you get it.

However, that doesn't mean you don't have to do anything. You have to take action to reach your goals but when you work with the Law of Attraction, you will be taking inspired action thanks to the nudges and ideas the universe puts in your path.

For instance, various moneymaking ideas may come to you when you want to attract money. Pay attention to the universe and listen to your heart when opportunities present themselves. Be aware that there may also be opportunities arise that are not, the best choice. Remember, opportunities that the universe sends to you will have a good feeling, choose those that feel right.

Showing gratitude for what you already have in your life is one of the best ways to get the law of attraction to work for you. Be thankful for all the things in your life including your health, home, children or job. Offer the thankful thoughts and feelings to the universe. Remember, the life you experience right now is the reality you created by using the law of attraction.

It is your previous thoughts and emotions that have created your reality as you are now experiencing it. You are living the residual influence of your inner world. If you are suffering from unhappiness, change your thoughts and feelings. Think and feel what you want too, and then keep thinking and feeling it as much as possible. Remember, positive drives away negative.

Positive thoughts create a better future. If you want your life to improve, improve your thoughts. Keep in mind, the universe is busy at this moment creating experiences for you that reflect your thoughts right now.
